CHLITINA HOLDING LIMITED reaches NT\$340 million. Digital Transformation and Innovative Strategies to Seize New Business Opportunities
Taipei, December 6, 2024

CHLITINA HOLDING LIMITED (stock code: 4137, hereafter referred to as Chlitina) announced today its consolidated revenue for November 2024, which reached NT\$340 million, an increase of approximately 1% compared to the previous month. The cumulative consolidated revenue from January to November reached NT\$3,716.8 million. The traditional peak season in the fourth quarter has been less buoyant in our main business region than in previous years, resulting in slightly sluggish revenue performance. However despite external economic fluctuations and the fact that consumer spending has not yet shown complete recovery, the Company remains confident that its operations will improve. Currently, the Company is increasing the layout of its online channel, combining digital transformation and innovative product combinations, demonstrating forward-looking strategic deployment. This enables effective responses to recent changes in consumer behavior and industry competition, laying a solid foundation for future market evolutions.

According to an overseas research report by Fortune Business Insights, the skincare market in Mainland China is expected to grow from US\$59.08 billion in 2024 to US\$128.61 billion by 2032, maintaining a stable compound annual growth rate (CAGR) during the forecast period. As consumers become increasingly aware of the

importance of "skin care" for overall health and well-being, coupled with the rise of social media and e-commerce platforms, the personal care market is being driven forward, indirectly helping the Chlitina Group maintain good business development opportunities. The Chlitina Group leverages the strong brand power of its flagship professional skincare franchise, "CHLITINA", continuously targeting and expanding into untapped markets. Additionally, the recent launch of high-quality products under the omnichannel retail brand CHLITINA HOME SPA, including the exclusive imported series "Trotula Beauté d'Arômes" and "Le spa Jolie Rose" from France, have received positive reviews from a wide range of consumers. With our dual business engines running at full throttle, the group is poised to enhance the overall operational synergy of both its online and offline channels.

Looking back at this year, Chlitina has progressively achieved most of its goals in digital transformation and omnichannel layout. Looking ahead to next year, the company will focus on expanding the scale and improving the performance of its main business channel, the Chlitina franchise beauty salons. In addition to actively recruiting franchisees and opening new stores, the company will also provide in-depth operational support to each franchise store. We are looking forward to the improvement of the economic climate and public sentiment in Mainland China, which will be more conducive to investing in domestic demand and related business operations. The Chlitina Group has been operating discreetly for some time, and during this period, we have been relentless in enhancing internal operational efficiency, striving for excellence in all matters. We are well prepared to face the challenges and new business opportunities of the next phase.
